Residential Curbside Recycling Within Riley County, Kansas

While there is voluntary separation of recyclables in Riley County, there is no common coordinated collection. Several private haulers offer curbside recycling and are listed on the quick reference chart.

Things to be aware of when recycling:

- No bags, all items must be loose in a container.
- Paper and cardboard must be dry and free of food debris.
- Tissues, paper towels or other paper that have been in contact with food is not acceptable.
- Make sure food contamination and lids are removed from cans and all containers are empty and rinsed.
- Separate plastic lids from plastic bottles (often made from different materials).
- Do not place medical waste (needles, catheters or lancets) into the recycling containers.

Acceptable Materials:

- Paper Products
 - Newspapers & inserts
 - Magazines & catalogs
 - Cardboard & clean empty pizza boxes (flattened into pieces not larger than 2x4 ft.)
 - Paper boxes (Cereal, cracker, pasta, tissue, shoe, gift, etc. (discard plastic liner and flatten)
 - Junk mail & home office paper
 - School papers, files, folders, etc.
 - All envelopes
 - Gift wrap
- Plastic and Metal
 - Household cleaning supply containers (Emptied, rinsed & **caps discarded**. Labels are acceptable.)
 - Empty aerosol cans (No pesticide or spray paints!)
 - Aluminum, steel & tin cans
 - Milk cartons and drink boxes
 - #1-#7 plastic bottles (Emptied, rinsed & plastic lids removed)

Not Acceptable Materials:

- Batteries
- Carpeting
- Ceramics
- Clothing
- Electronic waste
- Fluorescent bulbs or tubes
- Food waste
- Foam Padding
- Mirrors
- Needles or syringes
- Oil cans
- Paint cans
- Contaminated paper
- Pesticide cans
- Plastic bags
- Rubber/Latex items
- Window Glass
- Yard Waste

Electronic Waste AKA E-Waste

The Riley County Board of County Commissioners accepted the recommendation of the Solid Waste Management Committee June 7, 2012 and approved Howie's Recycling as the County's recycler for electronic waste (E-waste). E-waste is no longer accepted at the Household Hazardous Waste Facility at 6245 Tuttle Creek Boulevard.

What is E-waste:

Electronic waste is anything with a plug or a circuit board.

Why is E-waste a problem?

- E-Waste contains toxic and hazardous materials such as lead, cadmium, beryllium, chromium, mercury and chemical flame retardants
- E-waste that ends up in landfills that contains heavy metals creates potential contamination to soil and groundwater
- Burning e-waste that contains brominated flame retardants generates toxic emissions
- CRT's (Cathode Ray Tube Monitors) found in old TV's and computer terminals contain 4-12 lbs. of lead

Do you know?

E-waste contains many valuable and recoverable materials such as aluminum, copper, gold, silver, plastics and ferrous metals.

Types of E-waste:

Microwave/toaster ovens
Electric/gas stoves
Small kitchen appliances
Washing machines & dryers
Vacuum cleaners
Hair dryers/curling irons
Irons
Electric mowers/weed eaters
Televisions (CRT, LCD, LED, Plasma, Projection)
Video Players (VHS, DVD, Beta, BluRay)
Cable/DVR/Satellite boxes
Cables/wiring
Surge protectors
Stereo systems & speakers
Games consoles, handheld games
VHS tapes, DVDs, CDs, audio tapes
MP3 players, IPODS, boom boxes, walkmen
Electronic toys
Cell phones, chargers, Pagers
Telephones/cordless phones
Answering machines

Digital cameras
Digital thermostats
Walkie Talkies
Car stereos
GPS units
Computers/Laptops
Servers
LCD & CRT monitors
Printers/Copiers/ Fax machines
Keyboards, mice, computer cords
External hard drives
Modems/network boxes
Scanners
APC/UPS Backup systems
Routers
Flash drives, floppy drives, CD's
Calculators
Electric typewriters
Projectors, overhead machines
Paper Shredders

Don't flush medications!

Flushing medications can cause contamination to Kansas aquatic environments.

Instead of flushing, residents can take excess or expired prescription and over-the-counter medications to the local household hazardous waste facility listed below.

**Riley County Household Hazardous Waste Facility
6245 Tuttle Creek Blvd. • Manhattan, Kansas • 785-539-3202
Open Monday – Friday • 7:30 a.m. – 4:00 p.m.**

This facility serves the Big Lakes Region which includes Clay, Dickinson, Geary, Marshall, Morris, Nemaha, Pottawatomie, Riley(Host County), Wabaunsee, and Washington counties.

This facility CANNOT accept controlled or narcotic substances, such as prescription painkillers like Percocet, or others like Xanax. If you cannot use this local household hazardous waste facility, then follow the Kansas Department of Health and Environment disposal recommendations listed below to prevent purposeful or accidental recovery of these medications.* Your local retail pharmacies support this water quality protection project.

Prepare excess medication as follows:

Crush or dissolve pills in water, coffee, or another liquid. Make a paste of the dissolved pills or liquid medication by adding it to kitty litter or coffee grounds. Put the paste in a closed container, making sure any personal markings are removed. Then put the closed container in the trash.

** These steps to safe disposal are recommendations from the Kansas Department of Health and Environment and are detailed in a guidance document available at <http://www.kdheks.gov/waste/guidance/sw07-01.pdf>.*

This publication was published by the Kansas State University Pollution Prevention Institute. For more information, call 800-578-8898.

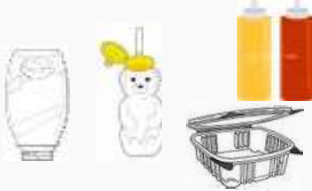

Printed on post-consumer recycled paper, Sustainable Forestry Initiative participant

Howie's Saturday Collections

Riley County's Household Hazard Waste mobile trailer collects household hazardous waste at Howie's Recycling, 625 South 10th Street, Manhattan, KS, on the **second** Saturday of each month from 8 a.m - noon.

COMMON TYPES OF PLASTICS

Plastic Identification Code	Type of plastic polymer	Properties	Common Packaging Applications	Examples
 <p>01 PET</p>	Polyethylene Terephthalate (PET, PETE)	Clarity, strength, toughness, barrier to gas and moisture.	Soft drink, water and salad dressing bottles; peanut butter and jam jars	
 <p>02 PE-HD</p>	High Density Polyethylene (HDPE)	Stiffness, strength, toughness, resistance to moisture, permeability to gas.	Milk, juice and water bottles; trash and retail bags.	
 <p>03 PVC</p>	Polyvinyl Chloride (V)	Versatility, clarity, ease of blending, strength, toughness.	Juice bottles; cling films; PVC piping	
 <p>04 PE-LD</p>	Low Density Polyethylene (LDPE)	Ease of processing, strength, toughness, flexibility, ease of sealing, barrier to moisture.	Frozen food bags; squeezable bottles, e.g. honey, mustard; cling films; flexible container lids.	
 <p>05 PP</p>	Polypropylene (PP)	Strength, toughness, resistance to heat, chemicals, grease and oil, versatile, barrier to moisture.	Reusable microwaveable ware; kitchenware; yogurt containers; margarine tubs; microwaveable disposable take-away containers; disposable cups and plates.	
 <p>06 PS</p>	Polystyrene (PS)	Versatility, clarity, easily formed	Egg cartons; packing peanuts; "Styrofoam"; disposable cups, plates, trays and cutlery; disposable take-away containers;	
 <p>07 O</p>	Other (often polycarbonate or ABS)	Dependent on polymers or combination or polymers	Beverage bottles; baby milk bottles; electronic casing.
