

## Fee Explanation for Reproductive Health Services 2022

At Riley County Health Department, we offer some services on a sliding scale fee scale for uninsured and underinsured clients who are seeking reproductive health services. Fees are based on **annual gross income** (wages, commission, tips, allowances/stipends, alimony/child support, Disability Income, Temporary Assistance Needy Families(TANF), student grants, scholarships, and financial aid used for living expenses) and **family size** (Yourself plus # of persons being supported in the home by this income.) **Income will be verified by 30 days of pay stubs for the current year**, employer letter stating pay, self-employed income tax returns for 2019 and financial aid, scholarship, grant, loans, fellowships, and assistantships. \$0 is not an income. If you are unable to produce proof of income or decline, charges will be assessed at **Full Fee\***. (This does not apply to anyone 17 years of age, confidential minors.)

Insurances are charged Full Fee. After insurance pays, the remaining balance may be discounted depending on your policy and income. Please note, Riley County is NOT a Tricare Health Insurance or Cigna provider.

The following table shows our sliding scale categories by household size and monthly income:

**Household income is anyone that is working in the household and the number of people living in the household that is being supported by this income. Not just the client income.**

Each additional household member over 8, add \$4,540 for each person.

You can opt to not use the discount and pay full price. Full Fees for services listed below.  
For additional questions about the sliding fee scale, please ask the medical clerk.  
Payment is expected and encouraged at the time of service.

A visit with Advanced Practice Nursing Practitioner (APRN) is required once per year.

- Not all charges are known on the date of service and could be applied later to your account such as HPV lab testing on cervical pap smear.
- Clients with income at or below 100% (Category A) Federal Poverty Level will not be charged for basic Reproductive Health Services that are covered by grant funding. (Doesn't apply to all services and doesn't apply to abnormal treatments.)
- Donations are accepted and appreciated for all services, even ones with a charge.
